Hello!

**GoetzSaCebu**

My name is John Barron and I have worked as a Social Media Consultant in various companies for several years.

I've seen your views on your channel and I think you have incredible potential.

Your videos are super entertaining and you are definitely not getting the views you should.

There are a lot of sites that promise subscribers and likes but ... they are not real. Sooner or later they will leave you the same as before you had them.

That is why I want to present you a simple and cheap tool that can launch your channel directly to the moon!

This tool will help you get there by having real visitors and subscribers who really like and participate in your channel.

It will even help you go viral. You can see tons of people using the tool [Here](#)

In simple words, this tool will connect your videos to a YouTube ad platform and can reach up to 90% of the internet, meaning that any audience is just one click away!

Going forward, when you promote your videos, we will automatically filter "low engagement" views (like kids with their parents' devices) to maximize views and budget.

If this seems interesting for you and for the growth of your channel, feel free to check it [here](#)

If you have any questions, reply to this email and let me know!

Otherwise nothing happens, I just thought I could help you by sending this to you.

Best regards!

John C. Barron

**P.S.** If you navigate going to the end first, like I do, here is the key point:

We have a simple and very affordable tool that will get you views and subscribers ... FAST!

If this doesn't work and this tool it is unable to promote your video for any reason, your money will be ***refunded***.
